Registry

PURPOSE

APNIC allocates Internet number resources in the Asia Pacific region according to community-developed policies.

It maintains the verifiable public registry of those resources and provides support and technical tools to help Members operate and improve their networks.

GOALS

● Execute APNIC's core responsibilities to maintain an accurate registry and provide delegation and registration services for Internet numbers (ASN, IPv4, IPv6).

● Provide core registry services to maintain a global, secure, available and stable Internet.

● Deliver excellence in service and value to Members.

● Develop and maintain high quality products and services for Members with a focus on continuous improvement.

● Ensure APNIC's online services are underpinned by high-performance infrastructure that is reliable, available, and secure.

Development

PURPOSE

APNIC supports development of the Internet in the Asia Pacific by providing technical training, helping deploy critical Internet infrastructure, and supporting the growth of technical and security communities.

GOALS

● Assist Members and the community to deploy critical Internet infrastructure, essential cybersecurity operations, and advanced network technologies.

● Build and maintain cost-effective and scalable capacity building models to meet the needs of the APNIC region.

● Support and encourage the sustainable development of healthy Asia Pacific technical and security communities.

Engagement

PURPOSE

APNIC undertakes authoritative research, shares data, and encourages community discussions via two annual conferences and other communication/discussion platforms.

Members and the community participate in the development of number resource policies.

APNIC participates and contributes to the global Internet governance ecosystem, and helps advocate for the technical community with relevant stakeholders.

GOALS

● Be recognized as the main knowledge exchange for the diverse Asia Pacific Internet operations community to discuss and share experience on technical research, network operations, security matters, Internet development, and policy.

● Facilitate diverse participation in policy to ensure the development of relevant and timely number resource policies for the Asia Pacific.

● Play a responsible role in the global, multistakeholder Internet governance ecosystem through active collaboration and engage in public policy discussions for the benefit of Members.

Capability

PURPOSE

As an open, member-based, not-for-profit organization, APNIC must serve its Members and the community with integrity, transparency, financial responsibility and accountability.

This takes the form of effective organizational policies, financial management, risk mitigation, operational technologies, communication and governance structures that allow APNIC's team of committed staff to deliver its mission.

GOALS

● Maintain secure and reliable enterprise technologies and data to underpin operational efficiency.

● Effectively manage APNIC's financial affairs to achieve long-term financial sustainability.

● Sustain a highly engaged and productive workforce by optimizing strategy, structure, policies and culture in a safe and inclusive working environment.

● Operate a responsive and trusted organization that is transparent, accountable, adheres to strong governance, complies with applicable laws, mitigates risks, and delivers on its promises.
